

# Antioxidants

## *High-Performance from Nature*

AnalytiCon's approach provides a pre-evaluated set of antioxidants for your individual applications and products.

- All natural & clean label
- plant-derived compounds
- Neutral color & taste
- Higher efficiency than synthetic antioxidants (e.g. BHT)
- Pre-evaluation by stability assays of fats/ oils with elevated temperature and air flow
- Evaluation along the product development
- Established supply chain of natural raw materials

Induction time of different compounds at 110°C in flaxseed oil.

***Innovative tailored solution for extended shelf-life of vegetable oils, dressings, bakery, beverages and more!***
